**SUBJECT: Quarterly Update to Correct Coding Initiative (CCI) Edits, Version V11.3, Effective October 1, 2005.**

## I. GENERAL INFORMATION

The latest package of Correct Coding Initiative (CCI) edits, Version V11.3, effective October 1, 2005, will be available via the CMS Data Center (CDC). A test file will be available on or about August 2, 2005, and the final file will be available on or about August 17, 2005.

Version V11.3 will include all previous versions and updates from January 1, 1996, to the present and will be organized in two tables: Column 1/ Column 2 Correct Coding Edits and Mutually Exclusive Code (MEC) Edits.

**A. Background:** The Centers for Medicare and Medicaid Services developed the National Correct Coding Initiative to promote national correct coding methodologies and to control improper coding that leads to inappropriate payment in Part B claims.

**B. Policy:** The coding policies developed are based on coding conventions defined in the American Medical Association's CPT manual, national and local policies and edits, coding guidelines developed by national societies, analysis of standard medical and surgical practice and review of current coding practice.
